Subject: Microsoft Settlement

I am outraged about this proposed "settlement". Since when you companies in this country get to pick their own punishment. This is a slap in the face to every citizen in the United States. And further, donating "Microsoft equipment" is not a punishment at all. This only increases Microsoft marketshare!!!!!! How about they donate \$1 billion in CASH to the schools. Or even better yet, how about donate \$1 billion to the people and companies that Microsoft hurt, AND WAS FOUND GUILTY.

The bottom line is a lot of people were hurt when Microsoft rolled over these fledling companies. Jobs were lost, economy hurt, innovation squashed, and dreams crushed. Those people should benefit from any punishment given to MS. Don't think for a second that I believe schools don't need it, but let those who suffered at the hands of MS benefit from their penalties.
